Introduction

- Talk about the data analysis and probably a few other things, maybe like where we were gojng to go with it but then what changed

Methods

- Not sure what goes here, maybe our methods we used to analyze the data (i.e. the regression and stuff that we plan to do)

Results

- Just the results from all of the shit we do to the data

Conclusions

- Essay type write up for the conclusion

References

- Link the data set probably and any other resources that we use
